

ReSea Project

November 12, 2021 · 🌐

...

Our General Manager, Ann Sofie, happily reunited with our cleanup teams in Indonesia 🇮🇩 With global limitations in crossing borders due to the pandemic, we were extremely happy to finally be able to switch out online meetings with some real-life physical presence 🍷 🇮🇩

We can't wait to share more from our recent visit and the progress and development of our efforts to tackle ocean plastic pollution. If you want to learn more about how we operate and document the environmental and social impact of our cleanup efforts, we suggest you stay tuned for tomorrow's post 🌊
